# OUR COMMUNITY NEEDS YOU

*Help us protect our  
Jewish community*

*Join our work to  
fight against antisemitism*

*Join CST today as a fully trained  
Security Volunteer*

*'The CST Cadet Course training will challenge you physically and mentally. The course gives you invaluable knowledge about specific security principles, not widely available. It is rewarding to see the progression of volunteers during the course, so that they can protect both themselves, their colleagues, and their community.'*

CST Security Instructor

Community Security Trust protects British Jews from antisemitism and related threats. CST secures over 1,000 communal events each year throughout the UK. CST would be unable to do this without a dedicated group of trained voluntary security officers. Our Jewish community relies on people like you to help protect it. CST protects British Jews and ensures that the community can continue to live the Jewish life they want.

*'Training to become a CST Security Volunteer was very challenging at times. There is a lot of theory to learn and the Krav Maga definitely tested my fitness! I found the staff to be exceptionally knowledgeable, supportive and inspiring. I really enjoyed the course and am thrilled to be giving something back to our community.'*
